## Swift's Fertilizers Are the Best Crop Producers

Bone - Blood - Tankage

"It Pays to Use Them"

The Blood, Tankage and Bones produced by the immense slaughtering business of Swift & Company are almost all used in Swift's High Grade Fertilizers.

These materials are properly processed and combined, and make Swift's Fertilizers the most productive and most profitable for the farmer to use.

Swift's Fertilizers do not leach away, but become a part of the soil, therefore, any unused plant food is available to the following crop, which means an added profit and is another reason why it pays to use Swift's Fertilizers. The crops get every ounce the farmer pays for.

Swift's Fertilizers are finely ground and laid away in huge piles to cure, months before the shipping season, thus insuring double mixed goods, uniform analyses and fine drilling conditions.

Every brand of Swift's Fertilizers is made from the highest grade and most productive sources of plant food.

Results: Larger profit to you.

# NOTICE

Take advantage of our COKE SALE on Furnace and Chestnut Coke and protect your home from fire. The following notice appeared in the Chicago Examiner, edition of January 23rd:

Chicago, Ill., Jan. 23, 1919—Evanston had six fires yesterday in residences where soot choked chimneys had burst into flame. Fire Chief Hostetter explained that the burning of soft coal this Winter had clogged the chimneys and that the soot was now thick enough to ignite easily.

Take heed before it is too late!
